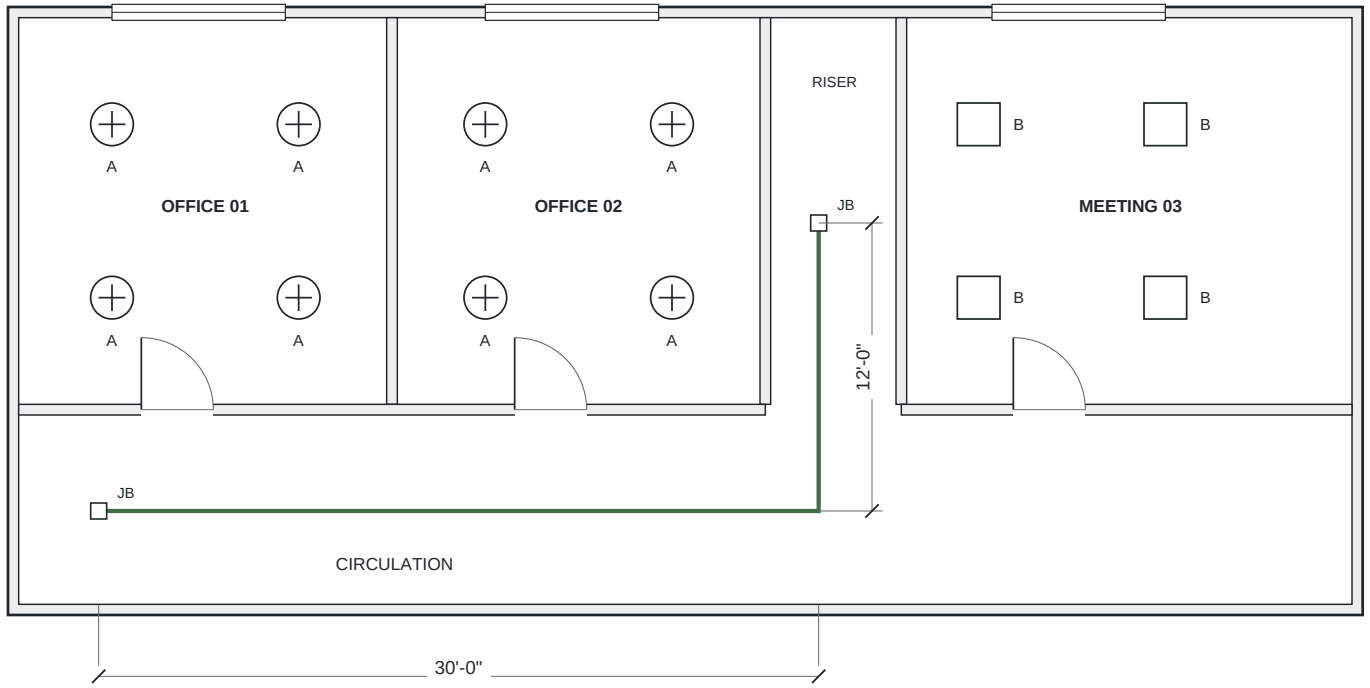
01 / LIGHTING AND DEMONSTRATION ROUTE

Count plan symbols only. Exclude the symbol legend and route junction boxes.



1 LIGHTING / ROUTE PLAN

GRAPHIC SCALE / FEET

0 2.5 5 7.5 10

9 PDF points = 1 foot. Calibrate before measuring.

SCOPE / ROUTE ONLY

Trace the two green legs from JB to JB.

30 ft + 12 ft = 42 ft drawn route.

No rises, drops, slack, fittings or circuit design.

Not a wire-length or procurement schedule.

ELECTRICAL PLAN NOTES

01 Architectural walls and doors are context. Only the two symbol types in the plan are counted.

02 Keep Type A and Type B in separate worksheet subjects.

03 Legend symbols are not installed fixture instances; restrict the search to the plan.

04 The green polyline is a route-measurement exercise. It is not an electrical design.

05 No connected load, conductor sizing, protection or code compliance is specified.

SYMBOL LEGEND

A Type A fixture / 8 in plan

B Type B fixture / 4 in plan

JB Route endpoint / exclude

ORIGINAL FICTIONAL PROJECT

Not an electrical installation document.
