Electrical / Reference checking sheet

Hand-calculated reference quantities from the synthetic practice geometry. Not a PolyPDF export.

Type A fixtures	**8 count**	Circle with cross
Type B fixtures	**4 count**	Square
Horizontal route leg	**30 ft**	270 PDF points / 9
Vertical route leg	**12 ft**	108 PDF points / 9
Total drawn route	**42 ft**	30 + 12; excludes rises, drops, slack, fittings

1. Calibrate at 9 PDF points per foot and verify an independent labeled span.
2. Reproduce the measurement or count in your own worksheet; check subjects and units.
3. Keep assumptions and exclusions with the exported result. Do not add subtotals twice.
