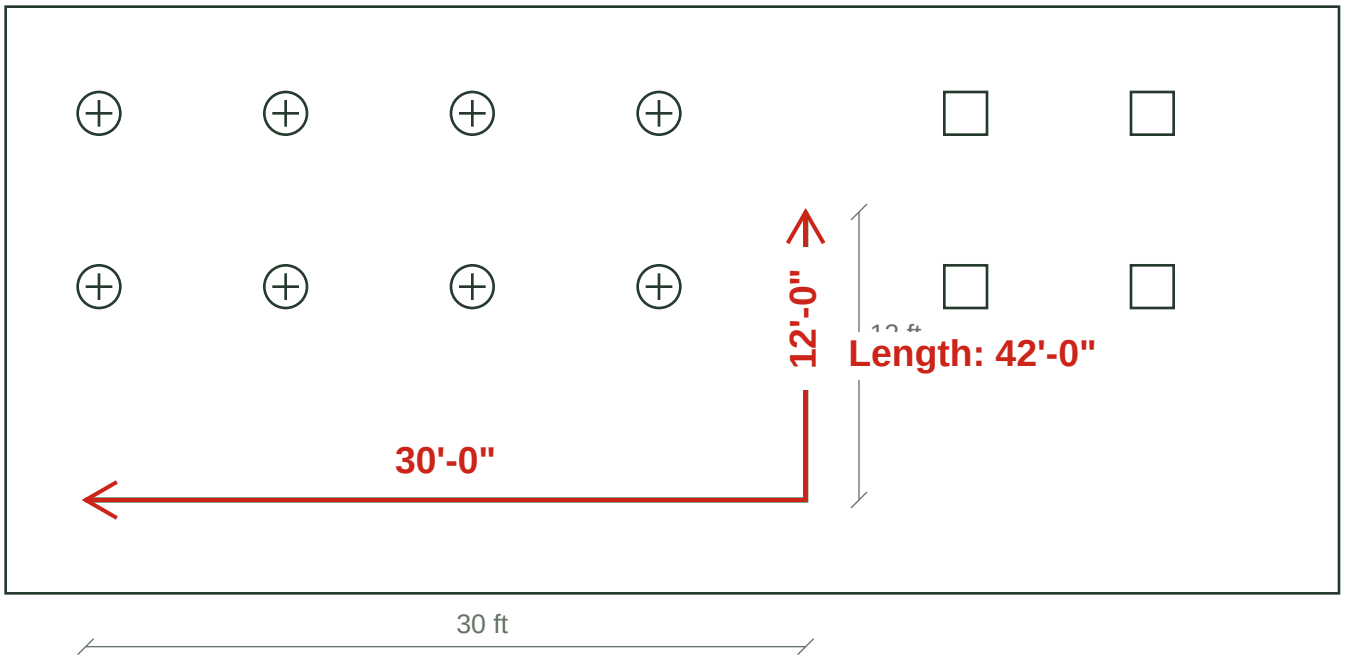
E-101 / Electrical quantities practice

Revision A | Scale 1/8 inch = 1 foot (9 PDF points per foot) | Dimensions in feet



Legend: circle with cross = Type A fixture; square = Type B fixture.

Count the drawn fixtures only. Keep fixture types in separate worksheet subjects.

Route scope: the two green legs only. Rises, drops, slack, and fittings are excluded.

Not an electrical design or code-compliance document. No live project information is included.
