

Supported native-text removal

FICTIONAL CONTACT: TEST PERSON / 555-0107

What this proof covers

Mark the searchable token above, apply the redaction, save, reopen, and search again.

A missing hit proves removal of this selected native text - not every content class.

SEPARATE TOP-LEVEL IMAGE XOBJECT

TOP-LEVEL RASTER IMAGE - NOT THE TEXT TARGET

IMAGE-ID: REDACTION-DEMO-001

Image pixels require independent review.

Supported fixture: direct unfiltered page text; no reusable Form XObjects.

The image is outside the marked region and remains for independent pixel review.

Fictional demonstration only. Not for production privacy decisions.
